DEFENSE LANGUAGE INSTITUTE

PREFACE

This is the 3rd volume of the Russian Basic Course, Taped Exercises. The Taped Exercises were developed as part of the overall development specifications for DLI Work Unit 0114, Revision of Taped Exercises in 20 Languages. The objective of Work Unit 0114 is to improve DLI audio software and to incorporate recent advances in language teaching/learning techniques into DLI courses. These materials are intended to supplement or replace existing tape materials in each of the 20 basic courses encompassed by this work unit. Special emphasis is placed on creative activities, realistic situations, and authentic speech variations. The inclusion of a self-evaluative instrument for each unit represents a new approach in DLI instructional methods. The materials can be used for self-study purposes outside of the class or in a language lab under the guidance of an instructor. They can provide the student with additional exercises for material which was previously introduced in class, and, as remedial or refresher exercises, they can be used whenever extra practice is appropriate.

These materials embody an analysis of the Russian Basic Course and emphasize aspects of acquiring listening comprehension skills which experience has demonstrated to be of particular difficulty for English-speaking students.

The materials consist of six instructor volumes, six student workbooks and 25 tapes.
