## PREFACE

This Workbook is designed to be a self-study self-evaluation device and is to be used with a correlated set of cassette tapes, which contain the stimuli for the Listening Comprehension component and the Narrative Vocabulary Practice. The Preface of the Student Text contains general information relative to the Spanish (LA) Basic Course as a whole and the way this Workbook fits into the total scheme.

The Key to all exercises contained herein is found at the back portion of the Workbook. Students are encouraged to do all exercises the first time through without reference to the Key. Developing this habit of making honest attempts at understanding or "guessing," when not sure, will pay long range dividends.

Even though activities have been specified for each exercise, the student will soon be aware of the variety of things that can be done with each stimulus, whether it be recorded or printed. A newsbroadcast, for example, might be played repeatedly, almost as background noise, while the student merely absorbs the melody and flow of the language--picking out bits and pieces of meaning here and there. Once familiar with the content, students may wish to try a bit of "simultaneous" translation. In order to grasp the basic message, a good practice is to always keep in mind the questions: Who was involved? What happened? When? Why? Oral and printed stimuli may be gisted, summarized or even rewritten. Throughout this course, the instructor will provide additional activity suggestions for many of the exercises of this Workbook but self initiative is encouraged.

EL ESPAÑOL SE CONVIERTEN<sup>1</sup> EN EL SEGUNDO IDIOMA  
DE LOS ESTADOS UNIDOS

Nueva York (AP) - El español se convierte rápidamente en el segundo idioma de los Estados Unidos. La necesidad de comunicarse<sup>2</sup> con una creciente<sup>3</sup> población de habla hispana y la importancia de su uso<sup>4</sup> en los viajes y en los negocios, impulsan<sup>5</sup> a muchos norteamericanos a asistir a escuelas de idiomas.

Como resultado de esto, hay un gran número de escuelas que ofrecen cursos de español. Muchas de éstas utilizan<sup>6</sup> un sistema<sup>7</sup> basado<sup>8</sup> en el que formuló<sup>9</sup> un conocido grupo de lingüistas<sup>10</sup> que estuvo a cargo de la enseñanza<sup>11</sup> de idiomas a los militares norteamericanos durante la Segunda Guerra Mundial.<sup>12</sup> El nuevo sistema le da mayor<sup>13</sup> importancia a la enseñanza de la lengua hablada, y menor<sup>14</sup> importancia al aprendizaje<sup>15</sup> de reglas<sup>16</sup> gramaticales.

La gente aprende español por una variedad de razones.<sup>17</sup> En California, por ejemplo, los policías y los empleados del gobierno lo estudian para poder tratarse mejor con gente de habla hispana. Muchas empresas<sup>18</sup> mercantiles<sup>19</sup> de los Estados Unidos contratan<sup>20</sup> a gente bilingüe,<sup>21</sup> es decir, que habla español e inglés. La casa<sup>22</sup> Sears Roebuck inició<sup>23</sup> recientemente programas para enseñarles español y francés a sus administradores y agentes<sup>24</sup> de compras que trabajan en el extranjero.<sup>25</sup>

- Este sistema no requiere<sup>26</sup> nada de conjugaciones<sup>27</sup> verbales,<sup>28</sup> ni largas listas de vocabulario<sup>29</sup> que aprender fuerá<sup>30</sup> de contexto<sup>31</sup> - dijo un funcionario<sup>32</sup> de la conocida empresa norteamericana.
