The authors of this book under the supervision of **Esther M. Simba** would like to give their sincere gratitude to the Peace Corps Country Director - **David Ashby**, Administrative Officer - **Mike Athens**, for their willingness in supporting and financing this book to be written. We also thank the former Associate Peace Corps Director for Education - **Sharon Johns** for her patience, flexibility and advice which contributed to the success of this book. The Peace Corps staff in Dar and Arusha training site would not be forgotten for their inputs in one way or another. Last but not least, the Training Director **Joan Bordman** can not be left behind for her encouragement in writing this book. It is not easy to thank everybody individually but we would like them to accept our heartfelt gratitude. Since this is a pilot book, we would like to invite any additional contributions to improve it.

P R E F A C E

Communication is one of the most important thing in any society. For that matter we (the authors) thought that there is a need of trying to write this book in order to ease communication between foreigner's and Tanzanians especially those who work here in different fields. Since the common language in East Africa is Kiswahili, we have written this book sighting areas like conversation and structure (grammar) in a simpler way. The communication topics have been designed in such a way that vocabulary comes first followed by English translation, then Kiswahili conversation and lastly exercises. Grammar begins with the grammatical explanation, examples, exercises and vocabulary. The structure topics have been designed by giving explanation about the topic, followed by exercises and then vocabulary.

The aim of this book is to help Peace Corps volunteers who are working in Tanzania to bridge the communication gap, and also other Peace Corps staff who might be interested to learn this language. It is our expectation that by following the instructions put in this book and by doing the exercises you will learn this language in the easiest way.

We would like once again to thank all those who participated in the work of writing this book. And to the reader we invite more comments which will lead us to the last work of this book so that it can serve as many people as possible.

OBJECT INFIXES

In order to express *it, him, them, her, us, me, and you* as objects in singular or plural, the object infixes are used.

Mfano:

If you want to say I am teaching *you* Kiswahili, an object infix for *you* which is '**ku**' is inserted between the tense sign marker and the verb stem. Therefore I am teaching *you* becomes: **Ninakufundisha** Kiswahili.

Living creatures' object infixes are:

| | |
|------|------|
| Mimi | -ni- |
| Wewe | -ku- |
| Yeye | -m- |

| | |
|-------|------|
| Sisi | -tu- |
| Ninyi | -wa- |
| Wao | -wa- |

Mfano:

| |

| Unanifudisha |
| Ninakufundisha |
| Tunamfundisha |

| |
|----------------|
| Unatufundisha |
| Ninawafundisha |
| Tunawafundisha |

Note: The ambiguity of "-wa-" in the 2nd and 3rd personal pronoun (pl) object infixer could be avoided by using a personal pronoun.

Mfano:

| |
|----------------------|
| Ninawafundisha wao |
| Niliwafundisha ninyi |

The verb "to give" in Kiswahili is just simply "-pa" and it is always used with object infixes

Mfano:

| | |
|----------------|----------------------------|
| Ulinipa | - you gave me |
| Nilikupa | - I gave you |
| Nitampa | - I will give him/her |

SUBJUNCTIVES

Subjunctive is a polite form of asking for things, giving directives as well as giving suggestions. In Kiswahili this is done by changing the last vowel "a" of the verb root into "-e." The subject prefixes remain at their positions but without tense sign markers. Words like better, best, please must are used.

Mfano:

| | |
|--------------------------------------|--|
| Tafadhali unisaidie | - Please help me |
| Lazima uende sokoni | - You must go to the market |
| Ni bora ujifunze Kiswahili | - It is better, you learn Kiswahili |
| Inafaa upumzike leo | - It is better, you have a rest today |
| Heri uende nyumbani | - It is better, you go home |
| Kabla ya kula sharti unawe mikono | - Before eating you must wash hands |
| Afadhalu uende hospitali | - It's better you go to the hospital |

Negative:

The negative is made by inserting -si- between the subject prefixes and the root of the verbs stem.

Mfano:

| | |
|---------------------|------------------------------|
| Usipige picha hapa | - Don't take a picture here. |
| Usivute sigara hapa | - Don't smoke here. |

REFLEXIVE INFIX "-JI-" AS SELF/SELVES

So far we have seen different types of object infixes. Another type of object infix which is commonly used in Kiswahili is the reflexive infix "-ji-" which denotes the action someone is doing to himself, herself or themselves.

"-Ji-" as a reflexive infix does not change with personal pronouns. This means that "-Ji-" is used in all pronouns.

Brian and Suzan are Americans. They came to Tanzania last year. They are volunteer teachers. Last month they went to Arusha to visit the family of Mr. Baraka. Mr. Baraka was very happy to see them. They talked about school and students. Brian and Suzan were also happy because they were able to meet with the father, mother and uncle of Mr. Baraka. The family of Mr. Baraka has one house of three rooms. The father, mother and uncle are staying together because Tanzanians like to help each other. Brian and Suzan were surprised to see many people at Mr. Baraka's home. They asked the mother, "Where are all the people sleeping?" Mother answered, "Others sleep in one room, and others sleep in the living room on the coach or mat." They also saw a cooking place. Mother said, "We cook outside using firewood or a charcoal stove." Baraka also showed them a pit latrine. They were very much surprised because the toilets were different from those in America. Mother cooked for them a delicious food that day and they ate together with hands. Brian and Suzan were very happy to visit Mr. Baraka's family.
